

Safe Space and Education Center for Street Connected Children

GLO works with our partner, New Generation to empower street-connected children and young adults to reach their full potential through back-to-school initiatives, reintegration support, skills development and leadership training.

We are seeking funding of \$2 million to build and establish a new safe space and education center in Bujumbura. Land has been purchased in a prime location and a team of UK architects have drawn up plans for an inspirational place of opportunity and support.

Location: Bujumbura, Burundi
Cost to complete: \$2m

IMPACT: Improving prospects for thousands of street-connected children and their families
